when you SEYMOUR.*

Project Life-Cycle Management (PLM/PDM)

- Are your models not rendering correctly?
- Are you losing track of model revision?
- Are you wondering where the models went?
- Are you still entering BOM into your ERP/MRP systems by hand?
- Are you wondering why models change when no one says they are changing them?
- Why are there two or more except same files and which ones do to use?

Modeling and Drawing Product (CAE/CAD)

- Does your supplier question drawing callout?
- Are there many evolutions of drawing style in your database?
- Do you have a corporate design standard to reference to?
- Does each drawing reflex the designer rather than the company?
- Are you finding drawing issues only after parts are scraped?
- Is everyone using their own templates?

Quality Systems (TQM)

- Does your product completely meet your and your customer's expectation?
- Do you say what we do and do what we say?
- Were the test results predictable and consistent?
- Does the customer have exact part replacement issues?
- Do you find issues with outsourced parts in production?
- Has your customer said you have two parts under one part number?

Computer Integrated Manufacturing (CIM)

- Do you make new models with the same information for different departments?
- When a revision is released, are you notified?
- Do you design with specific cutters in mind?
- Do you know the cost delta of the revision?
- Is there leftover stock that needs to get reworked or scraped?

Production Skill-Sets & Tool Development (CI)

- How much time is spent to release a standard product?
- Why are duplicate projects erratic in duration?
- Why do things not go as planned?
- What's my largest non-value-adder?
- Is there leftover stock that needs to get reworked or scraped?
- Is it failing to work in production as designed?

Product Development Process (PDP)

- Do you find yourself jumping through hoops to get new products released?
- Are there many revisions of one product released?
- Did they need it done yesterday?
- Are you wondering, how did we wind up with what we got?
